Scouts and Guides Camp

Building Leaders and Memories!

Scouts and Guides Camp was hosted at Epistemo Vikas Leadership School on October 19th and 20th. This two-day camp was designed to instill the core values of teamwork, discipline, and leadership in our students, providing them with valuable hands-on experiences.

The first day began with the opening and scarf ceremonies, setting the tone for unity, respect, and responsibility. Students engaged in sessions on yoga, stretching, and coordinated drills, enhancing their physical and mental focus, and fostering a sense of belonging and teamwork.

The second day brought adventurous activities such as tent-pitching, tire crawling, ladder climbing, and rope challenges. These tasks tested their strength and agility, while encouraging critical thinking and teamwork. The creativity shown in decorating tents and the camaraderie developed through shared challenges were truly commendable.

A key element of the camp was the mentorship fostered through buddy pairs, where older and younger students supported each other, highlighting collaboration and leadership. I am thrilled to announce that all participating students successfully completed the Level 1 Introductory Camp and are now ready to progress to the next level, with exciting challenges like the Burma bridge and zipline ahead. Their ultimate goals include prestigious milestones such as the Governor's Award, President's Award, and A, B, and C level certifications.

This camp was not just an event—it was a life-enriching experience that equipped our students with essential skills, strengthened their character, and created lasting memories and friendships. Let's applaud their dedication as they continue their Scouts and Guides journey.

At the end of the camp below students were felicitated for their exceptional performance and active participation
